Todd Bodine on driving at Nashville Superspeedway

“I’m looking forward to going back to Nashville Superspeedway. We had a great run there last year. We were able to get the guitar finally. We’re going there with a brand new truck. I think we’ve got a good handle on the track and we’re looking to get International a win.

“International has a big hospitality at Nashville. It’s something we haven’t had the opportunity to deal with in a long time, so we’re excited about the opportunity to race for International and to meet their associates. The best way to start off the relationship great is to do it with a win.

“Nashville races like a mile and a half which our team excels on. It’s really a driver’s track and how the driver approaches it and finesses it translates into results. It’s fun to race. Our team has a good setup for the concrete surface which gives us all a lot of confidence heading into the weekend. “
